DETAILED ACTION

Allowable Subject Matter

1. Claims 8-23 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. While the Moore and Abe patent documents shows a manufacturing system with a tag reading environment similar to the current invention, neither this reference taken alone or in combination with the prior art of record disclose where the component being incorporated into the item is separately tagged and then the information about the incorporated component is displayed or updated in a database. It is this separately tagged component and database update / information display, in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Drawings

5. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the application was filed with informal drawings and has now been allowed. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected

drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
